City of Colton Electric Utility Launches New Energy Audit Programs for Colton Customers

Colton, Calif. — (June 17, 2013) —City of Colton Electric Utility has new programs for residential and commercial customers with high electricity bills who want to learn what they can do to lower their energy consumption. The Colton Electric Utility will provide free home and small business energy audits for qualifying* customers in the City of Colton electric service territory.

“Our goal with this energy audit is to assist our valued customers to reduce their energy consumption and see what areas in their home, or small business, can benefit from upgrades,” said Adrienne Rogers, Energy Services Specialist at the City of Colton Electric Utility.

Energy Audit Experts will

- Evaluate your home or small business’ heating and cooling system, building envelope (insulation, windows, doors), appliances and lighting
- Provide implementation recommendations* for customers

Energy Audits are for a limited time only. Applications are processed on a first-come first-served basis and may be terminated without prior notice once funds are depleted.

For more information on the City of Colton Electric Utility energy efficiency programs please visit our web site at www.coltononline.com or call Adrienne Rogers at (909) 514-4214.

*Visit www.coltononline.com for program eligibility and terms for possible utility direct install measures.

Colton Electric Utility was established in 1887 and continues to be committed to provide safe and reliable electricity at the lowest affordable rates to our existing customers. Today the Colton Electric Utility provides services to over 16,000 residential customers. More information available at www.ci.colton.ca.us/ or by calling 909-370-5104.
